WORK EXPERIENCE

Medtronic

Remote

Principal Advanced Analytics Analyst (Product Owner)

June 2025 – Present

- Transitioned into Inventory Planning Product Owner role and quickly established cross-functional leadership, including triage of ~50 legacy analytics and onboarding of Field Inventory teams to new analytics processes.
- Co-led deployment of the Strategic PAR Dashboard and Global PAR Calculation statistical model, enabling a global optimization program tied to \$12M+ ROI over 2 fiscal years and reduced SOGL risk.
- Directed and supported squad execution of significant technical debt work, significantly stabilizing the ecosystem and improving delivery reliability.
- Sponsored high-value model/report rebuilds to improve data quality, support AI readiness, and reduce ecosystem capacity usage by an estimated 15-20% CUs.
- Served as an AI champion for Product Owners and developers, shaping practical adoption of tools (GitHub Copilot, Cursor) and strengthening team effectiveness through stakeholder-focused, high-urgency delivery.

Senior Advanced Analytics Analyst (Developer-Product Owner)

July 2023 – June 2025

- Led development of the Open PO Pipeline analytic, contributing to \$400M inventory cost avoidance.
- Built and launched high-impact data analytics products including Indirect Spend, Legal Ops Spend, and Open Order Flow; drove adoption with ~17K views in 30 days on major launches.
- Supported enhancements and automation of Direct Spend & Inflation reporting, improving refresh timeliness and reducing manual team effort.
- Developed Git strategy and adoption path for version controlled analytics via Azure DevOps Repos and Pipelines within our team
- Transitioned into Product Owner-level responsibilities, balancing model rebuilds, stakeholder training, and cross-functional coordination with senior business leaders.
- Mentored and onboarded new developers through ownership transitions, process coaching, and day-to-day delivery support.

Advanced Analytics Analyst (Developer)

July 2022 – July 2023

- Built and supported high-usage Supply Planning analytics through Power BI, improving insights adoption and expanding ecosystem coverage across squads.
- Developed GSM reporting solutions including Supplier Escalation and Supplier OTIF, plus key contributions to Direct Spend & Inflation analytics.
- Refactored and maintained 5+ reports and implemented a new Commodity Code/Material Category structure across GSM reporting.
- Began development of Indirect Spend reporting and provided strong domain support to SMEs and function leads to accelerate delivery quality and speed.

Associate Category Manager (OEM-Commercial Off-The Shelf Components)

July 2021 – April 2022

- Negotiated contracts and pricing with suppliers for a portfolio of components with ~\$17M of annual spend
- Conceptualized and supervised a Category Strategy for about 500 unique components
- Ensured supply continuity of components through the COVID-19 pandemic, labor shortages, and material shortages

Associate Supply Chain Project Analyst

January 2021 – July 2022

- Built and managed 10+ Power BI dashboards
- Created and maintained multiple Power Apps user interface applications for project tracking and other needs
- Developed 5+ back-end data feeds using SQL and an Oracle database system

Supply Management Intern

June 2020 – August 2020

- Developed an automated Power BI dashboard housing over 30 Key Performance Indicators
- Introduced a Business Continuity Plan using lessons learned from the COVID-19 pandemic for future crisis situations

EDUCATION

Arizona State University – Online, Ira A. Fulton Schools of Engineering **Remote**
M.C.S. Big Data Systems Expected Graduation: May 2027

- **GPA:** 3.40/4.00
- **Relevant Coursework:** Mobile Computing, Engr Blockchain Apps, Knowledge Representation, Statistical ML

Arizona State University – Online, Ira A. Fulton Schools of Engineering **Remote**
B.S. Software Engineering Graduated: May 2026

- **GPA:** 3.60/4.00
- **Relevant Coursework:** Software Enterprise Courses, Artificial Intelligence, Web-Based Apps, DB Management

University of Minnesota – Twin Cities, Carlson School of Management **Minneapolis, MN**
B.S.B. Supply Chain & Operations Management and B.S.B. Management Information Systems Graduated: December 2020

- **GPA:** 3.67/4.00
- **Relevant Coursework:** Intermediate Programming, Data Modeling and Databases, Strategic IT Management

PROJECTS - <https://johnst101.github.io/portfolio/>

3DSearch.org - Real-World Capstone Project **Live**

- A search engine that aggregates and indexes 3D models from the top model marketplaces into one place, so you stop tab-hopping to find the asset you need.
- Tech Used: Django (Python), React (TypeScript), Ollama, Docker, AWS

MyCask - Personal Project **In Progress**

- MyCask - Personal whiskey collection manager with barcode scanning, intelligent recommendations, and pricing insights.
- Tech Used: FastAPI (Python), React (Javascript), PostgreSQL

ForeTheMoney - Personal Project **In Progress**

- A golf pool web app where players select 6 golfers from weekly tiers and compete by accumulating real PGA Tour earnings throughout the season.
- Tech Used: FastAPI (Python), HTML, CSS, JavaScript, NeonDB (PostgreSQL) Docker, AWS

SmartHomeGesture - Mobile Computing Project **Complete - Not Hosted**

- Project for CSE535 Mobile Computing to learn Android Studio and developing mobile applications. This project is the start of an application that helps to control smart home climate controls with gestures for better accessibility and ease.
- Tech Used: Kotlin, Python, Gradle

VOLUNTEER EXPERIENCE

Phi Kappa Psi Fraternity (University of Minnesota) **Minneapolis, MN**
Scholarship and Accreditation Chair (Alumni Chapter Advisory Council) December 2021 – Present

- Administered interviews, the selection process, and distribution of over 10 undergrad scholarships throughout the year
- Participated in organizing and promoting the annual Founder's Day event for over 200 alumni and undergraduates
- Oversaw the undergraduates in the annual accreditation process with the Phi Kappa Psi national chapter

Finance Chair (Alumni Housing Corporation – New House Development Team) December 2021 – June 2023

- Designed a proforma for a \$4,000,000 new chapter house project for the fraternity
- Communicated with banks on mortgage options and procure other sources funding for the new chapter house project
- Managed a team of 4 people on the finance committee of the new chapter house project
